

Interfuse receives Abacus Award from American Electronics Assoc.

--AeA Florida Council recognizes Interfuse's breakthrough OfficeLock® technology--

Boca Raton, Fla., October 30, 2004 – Interfuse Technology Corp. last night received an Abacus Award from the American Electronics Association (AeA) in recognition of its breakthrough OfficeLock file-security software technology. The AeA Florida Council honored Interfuse at its 11th annual Abacus Awards ceremony in Ft. Lauderdale, Fla.

Other Florida companies selected to receive the Abacus Award last night were Applied Digital and CrossMatch Technologies. Dr. Earlean Smiley, Broward County Schools Deputy Superintendent for Curriculum & Instruction, was presented an Abacus Award for Technology Educator of the Year. The University of Central Florida was recognized as the University Partner of the Year.

OfficeLock Enterprise™ is a multi-function security solution that embeds corporate security-policy attributes – including encryption and rights management – within the file, enabling businesses to protect their information on other networks, independent of any server connection or network security level. OfficeLock G2™ meets or exceeds all U.S. Government requirements for processing sensitive-but-unclassified (SBU) data. OfficeLock is available now and has been successfully deployed by numerous corporations and government agencies nationwide.

Interfuse President & CEO Phil Viscomi said, “The AeA has a long history of providing valuable support services to its members. Its Abacus program recognizes technologies that can have a profoundly positive impact on growing businesses. We are grateful for this recognition and look forward to participating in the Florida Council’s ongoing programs.”

About AeA

AeA, founded in 1943, is a nationwide trade association that represents all segments of the technology industry by lobbying governments at the state, federal and international levels; providing access to capital and business opportunities; and offering select business services and networking programs. For more information on AeA, please visit www.aeanet.org.

About Interfuse

Incorporated in 2001, Interfuse Technology Corporation is dedicated to helping corporate and government officials meet ever-changing data-security challenges. Its solutions enable users to exchange secure electronic files and protect data throughout the files’ complete life cycle. Interfuse is headquartered in Boca Raton, Fla. and its federal government sales operations are based in Washington, DC. OfficeLock is a patent-pending technology. To learn more about Interfuse’s advanced security infrastructure solutions, please visit www.interfusetech.com.
